This is UNEVALUATED Information

SOURCE EVALUATIONS ARE DEFINITIVE APPRAISAL OF CONTENT IS TENTATIVE

1. A new pipeline, made of steel pipe about one foot in diameter, is being laid about 30 feet from the road between Siewierz (N 50-28, E 19-14) and Czestochowa (N 50-48, E 19-07).
2. The ditch for it is being dug by machine and is complete up to a point about 10 miles south of Czestochowa. Some low-lying sections are already full of water. The pipe sections, which are sealed at each end by a light metal plate with an air vent, are lying alongside the ditch and along the projected route where the ditch has not already been dug.
3. The project was observed on two occasions a month apart, and no work was in progress other than the ditching machine digging its way slowly northward.
4. A mile or two south of Czestochowa the pipe swings north toward the steel works.

## Comment:

25X1

1. This pipeline may be used to supply natural gas to the steel works.

2. [redacted] the pipeline route after Siewierz [redacted] appeared to come from the southeast.
